**Movement number:** LEXUS 90032  
**Movement:** Manual winding, Mechanical Tourbillon Movement, Caliber number 90032, fully decorated.  
**No of Jewels:** 31Jewels

## Watch Display

## Preparing your watch

1. The watch shall be wound, by turning the crown in forward direction, while the crown is at Position 1.
2. Pull the crown to position 2 and rotate it backwards to set the correct time.
3. Using the supplied tool, gently push the pusher A to set the date. For each press the date jumps by 1 day
4. Push the pusher B to set the day of the week for each press the day hand jumps 1 day.

### **CAUTION:**

1. Stop winding the watch, when it becomes harder to rotate the crown. Excessive winding will break the mechanism and damage the movement.
2. Do not attempt to set the quick Date & Date between 21:00Hrs – 04:00Hrs as it will damage the day / date mechanism

## WATER RESISTANT

Your STÜHRLING TOURBILLON watch has been designed to withstand pressures equivalent to a depth of 50 meters. Each individual timepiece we produce is tested in a pressure chamber, to a depth of 50 meters (165 feet or 5 ATM) prior to it leaving our center. We however, advise you regularly check the crown remains in position 1 before entering a water environment.

## GENERAL CARE

- ❖ Do not operate any buttons when the watch is wet or while in water
- ❖ Leather straps are more easily damaged by frequent exposure to water. After every use in water, wipe the strap with a soft cloth, to improve the life of the strap.
